

LEYS FARM JUNIOR SCHOOL

Climate Action Plan

Sustainability Leads: Miss D Wells, Miss S Thomas, Miss D Bilton and Miss W Parkinson.

Leys Farm have created this Climate Action Plan to:

- Increase the confidence and expertise of our leadership team, staff, learners, and students in understanding climate change and how positive change can be achieved.
- Create a culture that prioritises sustainability.
- Share effective practice with other education settings and develop a peer-to-peer learning network.
- Use data to identify and prioritise action.
- Improve energy and water efficiency.
- Calculate our carbon emissions and identify ways to reduce them.
- Reduce operating costs.
- Increase resilience and start adapting to the impacts of climate change.
- Enhance biodiversity.
- Help learners develop skills and knowledge which help them to contribute to sustainability and climate change in their lives and future jobs.
- Develop and store our climate action plans.

To help us achieve our goals, we encourage our students to be involved in climate action planning. We aim to:

- Inspire their enthusiasm to help drive positive change.
- Increase their practical knowledge of sustainability and climate change.
- Give young people a sense of agency where anxiety stems from climate concerns.
- Create a sense of pride in their education setting.
- Enable them to share their knowledge and enthusiasm in their local communities.
- Enable them to engage their parents, carers, and wider community in sustainability and climate change.

Decarbonisation						
	Action	Responsibility and Key Stakeholders	Timescale	Information and/or resources required	Target/ Measure	Progress (Update at regular review points)
